Applicable to:

- Global Water – Palo Verde Utilities Company ("Utility")

Purpose:

The purpose of this tariff is to protect Utility's collection systems from blockages and damages, to protect Utility's treatment systems from process upsets, to protect the quality of recycled water, to protect the quality of biosolids (sludge), to protect human health and the environment from damage, and to enable Utility to comply with applicable regulatory requirements of the Arizona Corporation Commission (Commission) and the Arizona Department of Environmental Quality.

The Utility has a Source Control Tariff filed with the Commission on 2 September 2010 as authorized by Decision No. 71878. That decision also authorized a \$250 fee for violations of the Source Control Tariff.

This fee is due and payable immediately to the Utility upon the Utility issuing notice of the violation to the Customer. Notice may be delivered to the customer in person, left at the service address, mailed to the service address, or mailed to the billing address for the service location.
